AS/AL

MEMORANDUM FOR: Director for Intelligence  
Chairman, National Intelligence Council

FROM: Director of Central Intelligence

SUBJECT: Intelligence Assessment - Soviet-US  
Technological Capabilities

I would like to know what we are able to do in the way of an intelligence assessment on what we can do by our applying technology capabilities to conventional force which would obsolete Soviet weaponry in the conventional area [redacted]

[redacted] I discussed this with [redacted] yesterday who is highly enthused, says he knows exactly what is needed to be done on this and is ready to supply information and drafting assistance now. Out of this came the idea of [redacted] with his rich imagination and experience on conventional forces to be a consultant or even chairman of the effort.
